Dear Interested Provider:

We are excited to be sharing with you our IIPA Advanced Iridologist Programs. We encourage students and practicing Iridologists to elevate their level of competence, and have created the only certification program that is not also affiliated with a school that teaches Iridology, which is the accepted practice in other professional fields.

IIPA is pleased to announce the *IIPA Fellow Iridologist (F.Ir.)* and the *IIPA Diplomate Iridologist (D.Ir.)* programs for advanced levels of Iridology professionalism. For these advanced levels of education, we want to offer classes in many areas of the healing arts including Iridology, Sclerology, Rayid, Herbology, Homeopathy, First Aid, How to Set-Up a Successful Practice, Chinese Medicine, Ayurvedic Healing as well as other pertinent modalities.

To have your course(s) approved for the IIPA Advanced Iridologist programs (AIP), you first must be a current IIPA member in good standing. Then submit each course that you want to have approved by IIPA separately on the IIPA Advanced Iridologist Course Application form (*provided under the AIP Providers link*).

During this AIP program's inaugural year of 2013, IIPA will post your approved courses on our website and actively promote these as our new AIP approved courses for the new AIP designation, at no cost to you.

IIPA will promote this AIP program throughout the year, making it easy for our members to continue their education through your approved courses. Please keep in mind that these applicants will be required to take a minimum of one "IIPA approved" course per year for five (5) years to receive each of these advanced designations.

We, the IIPA Board of Directors, look forward to hearing from you about your course offerings and/or suggestions, as we work together to present new and exciting educational opportunities to our fellow Iridology professionals. We hope you will consider offering an IIPA-approved advanced level course(s).
